

Mohamed Amine SAYAGH

SOFTWARE DEVELOPER

Email:	contact@masayagh.com	LinkedIn:	linkedin.com/in/masayagh	Programming Lang:	TypeScript, PHP, Golang
Phone (Ma):	(+212) 616-137124	GitHub:	github.com/aminesayagh	Portfolio:	masayagh.com

SUMMARY OF EXPERIENCE

Committed software developer. Successfully led and delivered over 13 **payed projects** for **international clients and agencies** across various industries, I stand out in delivering projects that make clients feel authentically represented and connected to their vision. and eager to bring my skills to a corporate environment.

PROFESSIONAL EXPERIENCES

Technical Consultant Self Acquired Clients

August 2024 - Present (deadline 15 October 2024)

- Achieved full-stack web development for luxury brands, including [French Dandy](#) (Dubai), [Maud Diamond](#) (Brazil), and [Horde Studio](#) (USA), Expanding my team by delegating 30% of the development process to a newly recruited members and continuously investment in automation process based on AI Agents.
- Led the development of French Dandy's official e-commerce website by closely collaborating with their team and following **Agile** best communication practices, resulting in a **high-performance platform** showcased at events like the **Forbes Middle East** and centralizing all their marketing sources within 3 months.

Cyber Cohesion Security Community's Firm

Research & Development, Web Tech Lead, Infra development • Remote, Singapore • May 2023 - July 2024

- Designed and implemented a Golang RESTful API wrapping a Kubernetes controller-runtime to realize infrastructure applications for a security exigence. This automa- tion enhanced role-based deployment isolation, and **reduced the deployment time** on a two month team collaboration.
- Developed a CTF competition platform by **leading the development team** and standardizing internal web development pratices in a **zero-trust** environment, Introduced a new internal **framework** used in over 80% of our UI generation and **reverse-engineered** necessary libraries like Zod, resulting in hosting global events like OWASP AppSec Days, BSides Singapore, and ISACA within 11 months.

Jonas Digital Agency SMMA Digital Agency

Full Stack Web Developer • Remote, London • July 2023 - October 2024

- Executed NGINX-based cloud deployment for web solutions on a Hostinger VPS by streamlining **CI/CD pipelines** and serving multiple web application and blueprint project starter, **reducing development cycles by 83%** within four weeks, followed by ongoing enhancements over five months.
- Developed solutions for clients' CMS platforms by proactively resolving critical API integration bugs related to store management that halted project progress and maintaining continuous communication with external tech suppliers, this initiative saed the projects, resulting in the successful completion of seven global client onboarding full-stack projects.

Lavish Trading Investment Agency

Full Stack Web Developer • Freelance, London • May 2022 - July 2022

- Produced a **user-friendly web solution** for client enrollment in investment plans for a global project managing over **\$100 million** in active investments, leveraging the company's 12 years of industry expertise to create a **new source of client conversions**.

SKILLS

Cloud Services	Google Cloud , AWS , Oracle Cloud , Github Codespaces , Heroku , Vercel , Cloudflare
Containerization and Orchestration	Docker , Docker Compose , Kubernetes , NGINX
Programming Languages	JavaScript / TypeScript , PHP , Golang , SQL , Bash
Front-end / Back-end	React/Next.js , Express , Nest , Tailwind , State Management: Redux , Tanstack , WordPress , Pnpm Monorepo
Database	Firebase , MySQL , MongoDB , PostgreSQL , Redis
Version Control and CI/CD	Git , GitHub , GitHub Actions
Testing Practices	Unit Testing (Jest) , Functional Testing (Cypress) , Regression Testing (Puppeteer) , Integration Testing (Supertest, Postman)
Artificial Intelligence	Open AI , ChatGPT-4 , Gemini , Claude 3.5 , Cursor , Copilot , Midjourney , RAG , LangChain
Methodology and Standards	Agile , SOLID , Design Patterns , Refactoring , Clean Code , Distributed System , Serverless
Design	UI/UX , Design thinking , Photoshop , Illustrator , Figma

PROJECTS

Code Wrangler: prompt automation October 2024 - Present • [View the project repository](#)

- Built a command-line interface (CLI) tool with a configurable and reusable configuration interface that generates documentation resumes from project workspaces extended to an Retrieval-Augmentated Generation (RAG) pipeline, **tailored for developers preparing continuous versioned project overviews** for code generation.

Zec: Data Parsing Library May 2024 - July 2024 • [View the project documentation](#)

- Authored a standalone PHP open-source library that **introduces a novel method** to orchestrate between **business-specific data parsers** while maintaining confidentiality. The library leverages schema definitions and modular, extensible configuration management to coordinate parsers without directly handling data parsing.

Music NFT, Artist Sofiane Pamart July 2021 - One week

- Collaborated in a 140-member team, including 42 developers guided by Oussama Ommar, to develop **visual NFTs** for artist Sofiane Pamart, achieving the launch in one week.

EDUCATION

Master's in Big Data & Cloud Computing University of Hassan II, Casablanca, expected graduation 2025

Bachelor's in Computer Science University of Hassan II, Casablanca, 2022 - 2023
